ECHOES OF ANGELS

STEM Training

Pictured above are two of our teachers who attended a recent *Project Lead the Way* train-the-trainer course. They are anxious to share their knowledge and enthusiasm with the rest of our staff this summer for our new STEM curriculum. Work will begin soon on the renovation of the classrooms that we'll be using as our STEM lab. The classroom will be equipped with new furniture, state-of-the-art presentation media, and storage units. We've got the technology purchased as well as the curriculum. The first part of our professional development is complete. Mark your calendars for July 20. We're planning to host an Open House for all parents to view the lab as well as hear Dr. Jackson, Mrs. Gurbal, and Mrs. Stanislo share more information about our STEM program.
